PROFESSIONAL SUMMARY

A skilled and self-motivated web developer with expertise in React, Tailwind CSS, and Next.js, committed to building dynamic and responsive applications. I have strong capabilities in server-side technologies such as Express.js and Node.js, complemented by a solid understanding of RESTful APIs and database management using PostgreSQL and MongoDB. Adept at utilizing GitHub for version control and deploying projects on Vercel, I'm a self-motivated learner who thrives on challenges. I have a strong conceptual grasp of how systems connect and a keen eye for detail regarding performance, security, and clean code.

TECHNICAL SKILLS

- **Front-End:** React, Next.js, Typescript, Javascript, HTML, CSS, Tailwind CSS, Zustand
- **Back-End:** Node.js, Express.js, RESTful APIs
- **Databases & ORM:** MongoDB, PostgreSQL, Prisma ORM
- **Tools & Platforms:** Git, Vercel, Firebase, Jest, React Testing Library, Authentication
- **Soft Skills:** Creativity, Problem-solving, Collaboration, Teamwork, Time Management

SELECTED PROJECTS

- **Weather App**
 - **Technologies:** React, Tailwind CSS
 - **Description:** A front-end application that provides real-time weather information. This was one of my first projects, helping me learn core principles of component-based architecture, state management, and responsive design..
 - Link: <https://weather-keymoyes-projects.vercel.app> | <https://github.com/Keymoye/weather-app>
- **To-Do List Application**
 - **Technologies:** React, Tailwind CSS
 - **Description:** A full-stack application for managing daily tasks. This project further solidified my understanding of state management and responsive design.

SELF-STUDY AND LEARNING

- **Full-Stack Software Development:** I am a self-taught full-stack developer.
- **Front-End:** Built foundational projects using React and Tailwind CSS, and have since advanced to Next.js and Typescript for scalable development.
- **Back-End:** Mastered Node.js, Express, and MongoDB for backend logic. I've also leveled up with PostgreSQL and Prisma for robust database management.
- **Security & Authentication:** Implemented Firebase Authentication and security best practices.
- **Current Focus:** Currently learning GraphQL, caching, CI/CD ,and deployment.
