SUMMARY

Frontend Developer specializing in React, Next.js, TypeScript, and Tailwind CSS. Experienced in building high-performance, responsive, and production-ready web applications with clean architecture and optimized UX. Passionate about writing scalable components, improving web performance, and continuously learning modern web technologies.

EDUCATION

Zetech University

January 2026 - December 2029

Bachelor of Science in Software Engineering

PROJECTS

Portfolio Website 

September 2025 - November 2025

- Developed a modern developer portfolio leveraging **React, TypeScript, Vite, Framer Motion, and Tailwind CSS**.
- Crafted a professional online presence that embodies clean architecture, thorough documentation, and responsiveness.
- Focused on delivering a seamless user experience through smooth animations, robust accessibility features, and optimal performance scores (100% in all lighthouse metrics).
- Designed a secure contact workflow powered by Formsfree for efficient communication.
- Implemented premium UI/UX principles to create a visually stunning and user-friendly portfolio.

Weather App 

April 2025 - August 2025

- A modern, responsive Weather Application built with **React, Vite, React Query, and Tailwind CSS**. It fetches real-time weather data from the **OpenWeatherMap API**, provides city-based search, and displays clean, minimal weather information with smooth UI animations.
- It integrates **React Query** into the weather application to replace manual state management, adding centralized query caching, localStorage persistence, custom error handling, and an error boundary for improved runtime error recovery.
- Achieved perfect Lighthouse scores, ensuring exceptional performance, accessibility, and best practices.

SKILLS

- Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
 - Libraries & Frameworks:** React, Next.js, Tailwind CSS
- State Management & Animation:** Zustand, Framer Motion
 - Tools & Platforms:** GitHub, Vercel, Supabase

ACHIEVEMENTS

- Passed a frontend technical assessment by demonstrating strong knowledge of JavaScript fundamentals, browser networking (HTTP, headers, CORS), and core web engineering principles.
